► **NO team Members, Sponsors, Guests or Team Media are allowed in Ramp area**

START INTERVALS BY CLASS - 4-WHEEL CLASSES

TT, TT 2WD, TT Legends, TT Spec and Class 1 – Start at one (1) Minute Intervals. Mixed based classes based on qualifying results. Non-qualifiers in class start following last qualified vehicle in these classes. All following Classes – Start at 30 Second Intervals

LATE STARTERS - A competitor who is late for his assigned start time will start at the back of the class that is currently being interviewed on the ramp. Elapsed time of a late starter begins at their DESIGNATED START TIME, not their actual late start time.

Late starters must follow SCORE official's directions for late start procedure to avoid a penalty. If SCORE officials determine it is their procedures that caused start delays or last-minute adjustments to the start order, your time will be adjusted to when you are actually given the green flag.

Start Line will close **10 minutes** after last competitor is scheduled to start unless late start is approved by Race Director.

VCPs, Checkpoints and Deviations (Shortcuts)

CHECKPOINTS - Times shown in Race Information are APPROXIMATE based on projected number of entries for each event. These times may vary and are only for your reference during the event.

4-WV Classes: If you are running late but feel you can still make the finish within your designated closing time limit you can continue on. However, keep in mind that local traffic may believe that all race vehicles have already passed and not be looking for late competitors running at speed on the road or highway. You must Proceed with Extreme Caution at your own risk.

Moto/Quad Classes: If you are running late you will not be allowed to continue on. This is a precaution as 4-wheel vehicles will be overtaking slower riders.

Race Notes: Provide Course features, details and mileages around entire course for visual reference.

Virtual Checkpoints (VCP's) Numbers Vary by Class

1.) **Standard Lettered VCPs** are strategically placed to discourage short coursing. Penalty for failure to clear a **Standard VCP** within **120 FEET** (36.57m) radius is **10 MINUTES**.

2.) **Special Numbered VCPs** must be cleared within **40 FEET** (12.19m) and penalty for failure to clear is also **10 MINUTES**.

3.) **Critical Natural Protected Area VCPs A1–A94** (must clear within **30 FEET** (9.14m)). These VCPs are located in the sensitive Valle de los Cirios Protected Area.

Forbidden Roads

Certain sections of roads or trails near race route are designated as FORBIDDEN. At no time is any race, chase or other team vehicle of any type or any persons allowed on any section that is designated as FORBIDDEN. These areas are indicated on original or supplemental GPS files and must be observed at all times.

Forbidden roads will be closely monitored with tracking, and TIME PENALTY for being on any designated **FORBIDDEN** section is **FOUR (4) Hours** per violation.

SCORE STAFFED CHECKPOINTS AND PENALTIES

The penalty for missing a checkpoint is **one (1) hour** for each checkpoint missed. You are required to enter the safety coned area at Manned Checkpoints at **15 mph** in a single file manner and follow directions of checkpoint personnel. *You must be prepared to stop if signaled to do so.* Failure to follow checkpoint personnel directions may result in a penalty.

The checkpoint corridor is not considered part of the racecourse. Checkpoint speed zone is from 150 feet before checkpoint and 100 feet after checkpoint. Entering and exiting all checkpoint zones must be done in a safe and prudent manner in order to guarantee the safety of all checkpoint workers.

Passing is not permitted in checkpoint speed zones. Pitting is not permitted within 300 feet before and 100 feet after a checkpoint. Penalty for speeding in a checkpoint zone is a minimum of 15 minutes!

If you are signaled to STOP at a checkpoint and it is determined the unit failed to transmit tracking data as a result of physical damage or tampering, and you failed to stop on your own, a 15-minute penalty for each checkpoint you have passed without stopping will be assessed.

If you do not stop when signaled to do so, you will be assessed a 15-minute penalty for each checkpoint where you fail to STOP and no time credit will be given for the stop.

➔ **Missing a physical checkpoint is a one (1) hour penalty for each one missed**

Controlled Access Areas – Actions and Compliance

Driver or Rider of Record is responsible for the conduct of all persons registered for their team including all team personnel, guests and air support crews. All persons must have signed waivers and wear a SCORE issued wristband while in any controlled access area.

If any team member in any controlled access area who is not following these rules, the team will be penalized 15 minutes for first occurrence, and will be disqualified (**DQ'd**) if a second infraction occurs.

TIME PENALTIES – Following sections outline different types of infractions that will result in time penalties. Time penalties are added to your recorded on-course time to determine overall finish position.

SPEED ZONE PENALTIES are assessed for exceeding the speed limit in any zone indicated on the GPS files and also listed in this document. If you are speeding in controlled speed zones you are being tracked and recorded and will receive time penalties.

SCORE Stella devices collect approximately 20 data points per mile or one every 3 seconds to determine speed violations in controlled speed zones. A penalty will be assessed for each data point that exceeds designated MPH speed limit for each speed zone.

➔ **Time Penalty is 9 seconds for each mile per hour over Speed Limit at each data point.**

For example: Maintaining the maximum speed of 60 mph you will travel 1 mile in 1 minute.

- Traveling 61 mph for one mile with 20 Data Points x 9 seconds per DP, you will receive a 180 second penalty (3 min.) and your average speed for that mile will be 20 mph.
- Traveling 62 mph for one mile, your average speed with a 360 second penalty (6 min.) will be 10 mph.

There are three (3) different speed zone charts depending on vehicle class
